STATEWIDE VIRGINIA HEALTHCARE & HEALTH INSURANCE SURVEY

POLL RESULTS

CONDUCTED FOR
VIRGINIA HOSPITAL & HEALTHCARE ASSOCIATION

NOVEMBER 2025

HOW THE POLL WAS CONDUCTED

This poll was conducted by Mason-Dixon Polling & Strategy, Inc. of Jacksonville, Florida from November 19 through November 22, 2025. A total of 800 registered Virginia voters were interviewed statewide by telephone.

Those interviewed were randomly selected from a phone-matched Virginia voter registration list that included both land-line and cell phone numbers. Quotas were assigned to reflect voter registration by county.

The margin for error, according to standards customarily used by statisticians, is no more than ± 3.5 percentage points. This means that there is a 95 percent probability that the "true" figure would fall within that range if all voters were surveyed. The margin for error is higher for any subgroup, such as a gender or age grouping.

QUESTION: In general, is your opinion of Virginia's hospitals favorable or unfavorable?

	FAVORABLE	UNFAVORABLE	NO OPINION
STATE	**81%**	**16%**	**3%**

QUESTION: Virginia has a Certificate of Public Need law that regulates health care expansion to promote access to quality care and affordability. Which one of the following comes closest to your view? (ORDER ROTATED)

- **Health care services should be evenly distributed so that all Virginians have access to quality care no matter where they live. Otherwise, providers would be concentrated in wealthier areas and could cherry pick only profitable services to provide.**

- **Health care should be treated like a free market in which government has no say in regulating health care providers and services, leaving providers free to choose only those patients and communities they want to serve.**

QUESTION: The One Big Beautiful Bill Act cuts nearly a trillion dollars in health care funding over 10 years. As a result, it is estimated that 10 million Americans will lose health coverage and hospitals will lose billions in annual funding that supports access to care, employment, and the economy. After hearing this, what is your view of the law? Is it very favorable, somewhat favorable, somewhat unfavorable or very unfavorable?

QUESTION: During the recent federal government shutdown, one of the debates in Congress was about the tax credits available to help eligible families and individuals purchase health insurance plans. Those enhanced tax credits will expire at the end of this year if Congress doesn't extend them. If the credits expire, many Americans with this health coverage will see a significant increase in insurance costs. Do you feel Congress should or should not extend the enhanced tax credits?

QUESTION: Virginia law caps medical malpractice damage awards to $2.65 million dollars per case, with annual adjustments built in to increase the maximum damage award. Some trial lawyers want to eliminate the cap to allow for higher damage awards. Critics say eliminating the cap would increase insurance costs and limit access to care. Thinking about this issue, which side is closest to your view: (ORDER ROTATED)

- **Keep the cap to protect care access and control costs**
- **Eliminate the cap to allow for higher damage awards**
- **Maintain the cap but increase damage limits for plaintiffs**

QUESTION: Virginia has a longstanding law called "Right to Work" that bans requiring workers to be in a union as a condition of employment. Organized labor groups want to repeal this law, claiming it will benefit workers. Many business organizations oppose repeal on the grounds that it would deprive workers of a choice on union membership and harm employment and the state economy. Thinking about this issue, which side is closest to your view: (ORDER ROTATED)

- **Keep Virginia's Right to Work law**
- **Repeal Virginia's Right to Work law**
- **Reform but maintain Virginia's Right to Work law**
